*Thirty Kyocera KD210 solar panels and a powerful Solectria inverter combine for an unbeatable solar electric system for your home or business. Power from the sun pours onto the panels and down to the inverter which perfectly syncs your home and grid power needs. Feeding your household needs first, excess power is then fed backwards through your electric meter for a credit from the power company.*

*Virtually maintenance-free, with an expected life of over 30 years, your investment increases in value every time electricity rates go up.*

### **These are the pieces of equipment that make up this system:**

- 30 Kyocera KD210GX-LPU 210 watt solar module
- 2 Solectria PVI3000 Gridtie Inverter, 3,000 watts
- 4 MC4 10 AWG - 100' cable extension
- 2 Square D 30 amp DU221RB 250V AC Disconnect NEMA 3R
- 2 LA302 DC Lightning Arrestor for DC Systems
- 2 LA302R Lightning Arrestor for 120/240v AC
- 4 1/2" Strain Relief for #10 or #12 wire
- 1 WSS Select System Wiring Diagram
- 18 IronRidge Rail, XRS 1 at 144" (12 Feet) Anodized
- 12 IronRidge Kit, Splice XRS
- 12 IronRidge Kit, XRS L Feet (4) set
- 6 IronRidge XRS Kit, End Clamp Black "F" 1.81" (4) Set
- 12 IronRidge XRS Kit, End Clamp Black "F" 1.81" (4) Set
- 30 IronRidge XRS WEEB Ground Clip
- 24 IronRidge XRS WEEB Ground Jumper
- 12 IronRidge XRS WEEB Ground Lug

***This system qualifies for a Federal Tax Credit of 30% of the installed cost!***
